

Custom Menu System - Table of Contents

C# Scripts

1. CustomLevelLoader.cs (Loads a game scene of your choice by name and plays a custom sound)
2. Do_Not_Destroy.cs (Keeps the Menu System from being destroyed between scenes)
3. MusicMixerSliderControl.cs (Controls the music slider and how it connects to the Music Mixer)
4. SFXMixerSliderControl.cs (Controls the SFX slider and how it connects to the SFX Mixer)
5. SettingsPanelKeyToggle.cs (Opens and Closes the “Settings Panel” with an animation and plays a custom sound, all with a custom key press)
6. UIAnimationDisabler.cs (Causes the Settings panel to disappear and plays a custom sound)
7. UIAnimationEnabler.cs (Causes the Settings Panel to appear and plays a custom sound)
